DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a full-color OLED display and method thereof having, inter alia, a first passivation layer covering the surface and sidewalls of the white light-emitting OLED; stacked layers of a color-converting layer and a color filter disposed on the first passivation layer and separated at intervals; and a second passivation layer covering the surface and sidewalls of the stacked layers (claims 1 and 17). The remaining claims 2-16 and 18-35 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 1 through 35.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Yamazaki, Patent No. 6,433,487; Yokoyama et al., Patent No. 6,507,379; Andry et al., Patent No. 6,731,064; Sakama et al., Patent No. 6,521,912.

None of the above patents discloses the specific arrangement of the first passivation layer and stacked layers of color-converting layer and color filter, and the second passivation layer, as recited.
